We have late California news by the overland mail. Business had been rather dull and heavy rains prevailed throughout the State. The stations of the overland mail afford great conve-Lienco to California emigrants as resting places.
Accounts from Frazer River are turning out much more lavorable than was anticipated, and

large numbers of miners are at work there. The telegraph brings us an account of more fighting in Mexico. The city must soon fall into the hands of the Liberals. The New York breadstuffs market yesterday,

as well as our own was dull, with a downward tendency. Flour declined 5 to 10 cents at New

The weather was damp and cloudy, with indications of rain.

Convenient Arithmetic.—The Madison Ar gus figures together the Douglas and Bochman vote of I licots, and calls it a Democratic ma-jority of 1,443. A more correct way, it strikes us, of getting at the relative Democratic strength, is to take the vote cast for Buchman, the head and representative of the Democratic party, and compare it with the vote against him. On this basis the following result appears: Buchanan vote, 5,021; united opposition, 247,352; Democratic minority, two hundred and forty-two thousand three hundred and twenty one.—Free Democratic

That is very much so. Or, if Douglas means Democracy, then the popular majority against these two D's in Illinois, is within a traction ten thousand.

THE LETHINGS OF TRHUASTEFEC .- A Louisianian writing from the Isthmus, says, "you in New Orleans can hardly form an adequate idea of the fruitfulness of this beautiful country. I have seen a sugar cane here as large round as a wine bottle, and fully eighteen feet in longth .-This is no travellar's exaggeration, but cober fact. Colles of the finest kind, and all the fruits of the tropics, are produced here, and can with the Robers.-On Saturday morning, a be produced to an enormous extent, when labor and capital are available for the purpose. Land jaweley store in Grand Haven, Mich., was erhere is being sold by the government at \$1000 per lesgne. Some Americans have bought tracts, and will scon have sugar to roll."

INTELLECTUAL IMPROVEMENT IN RUSSIA .- A St. Petersburg correspondent of the New York Herald says an association has been recently formed for the purpose of diffusing education by founding libraries and cabinets de lecture in every town and considerable villeg e in the empire; by publishing standard works, original and translated, at low prices; and encouraging authors of repute, by premiums, to write books of arauses ment and instruction for the masses.

The Portage City Budger State notes the first arrival of goods at that place by way of the Fox River Improvement. They came through from Buffalo on two sail vessels, which, after within his reach, particularly a fine lot of new tin and Mississippi rivers.

Winnebago County-The Apathy of Republican Voters.

Masses. Entropy :— I think it is but simple justice to the Republican voters of this State, that they be informed why the majority in Winnebage county is no small this fall. I will briefly call your attention to the town of Ruckford, which in 1856 was the banner town in the county, and I will say as Virgil did, "cauno discommer," "from one learn all." In 1856 that town cast 293 votes, of which 24 were democratic making a Republican majority of 245. this town cast 228 votes, of which 24 were democratic, making a Republican mejority of 245, this fall it cast 171 voter, of which 17 were democratic, making total loss of 128 votes from the whole number wheat the town contains at least 50 more votes than it did in 1855. The Repubso more votes then it did in 1855. The Republicans can cast 265 majority in that town. That town in common with other towns in the county, has never cast over \$\frac{1}{2}\$ of its votes at a general election since it was organized, except in 1866. It polled in 1855, 128 Republican majority.—
It is mainly settled with people from the Electric States, and it is almost unaccountable that there should have little attention and states, and it is almost maccountable that there should be rolitic extention ped to the proper selection of public officers. The same ludifference prevails throughout the county, Last fall the democratic vote was, in the county, 80 more than in 1356, while the Republican vote was 700 less. I think the farmers better give up the government of the State to the citics and villages at once, for it seems to be too great a tax on them to go to elections.

Yours,

A. B. -Madison Journal.

ANTI-LICOMPION INDIANA .- The demonstration last night by the anti-Lecompton Democrate was both imposing and insignificant. The crowd was very large, and the speeches very decided, emphatic and unequivocal. The thunder of the cannon that boralded the meeting was not mere unmistakable than the tone that followed it. unmistakable than the tone that followed: it,—
Hon. John G. Davis, who spoke first, left n clean
track right in the path he has trodden from the
start, and when he declared that "no man who
approved the doctrine that the Constitutive carried slavery lots the Tertiories could carry a
single towaship in any free State," the answering
shout was convincing proof that he spoke the
centiment of every man of his party. Mr. Davis
left the Lecomptonites nothing to feel good over,
if they expected such a favor. And Mr. Corbet,
who came next in a capital espech was no more
benevolent. He did not spars a crumb of comfort to the hungry Buchanan mea. Dick Ryan, fort to the hungry Buchanan men. Dick Ryan, who was called for all the time with the most furious enthusiasm, was less comforting than the rest, as little consolition as they gave. He made his mark jost where his former position and constant consistence. his mark jost where his former position and constant convictions pointed out, and it was a mark that nobody could mistake. He declared out phatically for the custing of the imposters who now mis-represent the State, and the vast audience cheered the declaration and his three plank platform. Mr. Domont was still more decided, and uncompromising with the Lecompton hereay than Ryan, and his stinging "his" kept the house in a roar of applause. Judge Wick closed the meeting with a very characteristic and effective speech, which we could not stay to hear through. The whole meeting was just as little calculated to give aid and comfort to the Lecomptonities as it could well be. It was just

THE VOIR IN SAUK COUNTY.—It is a significant fact, and one that Republicans in this county will be proud to observe, that with a popular vote lighter by six hundred than it was two years ago, and undoubtedly within three quarters of a full vote at the present time, that Washburn's majority is within a hundred of what it then was, or over nine-tenths. Our whole vote in '56 was \$3,015; and Washburn's majority 1,017, or less than 30 per cent of the vote. This year the whole vote in the Gounty is 2,406, and his majority 213, or over 38 per cent of the vote; being a majority, in proportion to the vote, more than a quarter greater than in the Fromont Campaigo. Talk about Republicanism declining! Let other Counties do as they will, Old Sauk tands firm,—Baraboo Republic.

Lecomptonites as it could well be. It was just what might have been expected of consistent, manly, honest men.—Indianapolis Journal.

ROBBERT OF A JEWELET STORE-AN EXPERT THIS NABRED AND THE STOLES GOODS RECOVERED -OLERE ARRESTED ON SUPPLICION OF COMPERCITY man named Ww. H. Ruggira, who keeps a small rested for stealing a quantity of valuable groos from the store of Mr. A. B. VAN Corr, in this city, and also a brother of his, named MILLER Rugeles, a lad who has been in Mr. Van Corr's

employment as clerk for some time past. At the request of the police, we have forborn mentioning the robbery in order to give them an opportunity to fully investigate the matter before making it public. It appears that the elder Ruggles is the owner of a small jewelry store in Grand Haven, and that he has been in the habit of purchasing are salesp, the house takes fire. And these many of his goods of Mr. A. B. VAN Corr, of wooden receptueles, placed in an entry or under this city, in whose establishment his brother a staircase, as is too frequently the custom in was employed as a cierk. On Friday, the elder and about lawyers' offices, have been the cause Russias was in and out of Mr. VAS COTE'S of many free, which for want of reflection have store a good deal, bought a few trifling articles, been attributed to incendiarles." and examined very closely everything that came goods which were being opened and marked, ance of one very beautiful watch, that he steps ped behind the counter and took it out to ex-

and so much was he delighted with the appearpress his admiration of it, and although Mr. Van Corr's salesman was looking at Ruegurs, and believed that he saw him return the watch to the showcase, it is thought he must have slipped t into his sleeve or pocket, for it was afterwards found amouget the stolen articles recovered. A reasonable degree of success, one would think, ought to satisfy an ordinary thief; but it ap-

pears that Ruggins had decided it would be

easier to steal a stock of goods these hard times than to buy them. His success thus far emboldened bim, and he commenced immediately supplying himself with alppl in a forry boat below St. Paul. The boat all manner of trinkets necessary to make up a was ruu into by a steamer, and Mr. Van Liew, full and extensive assortment. His suspicious accomments about the store led Mr. Mankr, Van ed. Mr. Van Liew was well known in this city, Corr's bookkeeper and salesman, to distrust that and throughout most of the Western country. all was not right, and without communicating his suspicious to anybedy else, resolved to keep a close eye on the Grand Haven customer. The result was that he very soon detected Mr. Res-Ques elevate his hand while examining a pack. age of watch files, and very coolly let them drop Into his sleeve, and thence they went into his pocket Mr. MARET thought it was best to that it will be an original and instructing diskeep coul for the time being, and not let Req. gues know that he had noticed him. When the latter left the store, Mr. MARKY inform-

ed Mr. Van Corr of what he had seen and suspeoted, and that evening the police were apprised of the matter. In the meantime, a valice belonging to Rugelzs was found in VAN Corra workshop, ander the store. Although it was lecked, upon a ciosa examination, Mr. Marky discovered that it contained a number of articles which he now felt satisfied Ruosuss had taken from the store and secreted in it. It was replaced where it had been found, and the next morning Pelicoman Garrick was stationed in the workshop to keep watch upon the suspic ious value. Friday night Ruggers and his brother went to the theatre together, but there appeared as yet to have been discovered no pegtive evidence that MILLER had any knowledge of the robbery. On Saturday forenoon he again visited the store and room went down into the basement for his value. He opened it and put

something in, and when he was about to depart he policeman came forward and arrested him. Upon searching him the following articles were found in his possession—some in his valles and some in his pockets : One gold watch, valued at half past 7 o'clock. Captain Frank Town-\$85; one locker, worth \$7; one gold cross.
worth \$7; three stude, worth \$8 50; one ring worth \$1; five dozen watch files, worth \$12; six sets of gold stude, worth \$20; two pair of gold elseve buttons, worth \$8; three pair gold speciacles, worth \$20; one pair cutting files, worth \$1, and various other little articles valued at \$10 90, making in all upwards of one bunlred and eighty-four dollars worth of goods,-When arrested Rugglas said he didn't steal the goods but that he "took them right before their the music. eyes." There were three prizes contended for, a handsome gold medal, with the inscription on one side, "Milwaukee Montgomery Guards, November 18, 1858;" and on the other side, "First prize, presented to the Milwaukee Montgomery Guards, Nov. 18, 1358;" a silver medal, with a similar inscription, and a silver goblet. The prizes were awarded as follows:

1st prize, Corporal D. D. Lyson. 2d prize, Private McCoautce.

3d prize, Private Molnagar. The contest was pretty close, and some excellent shots were made, as the appearance of the targes indicated. After the shooting match, the Guard was entertained to a free dinger at Mr. LUTHER's. They then marched to town, after the spirited notes of Major Roursson's fife, and paraded through several of the streets with their well riddled target in view.

THE LACT BOAT OF THE SEASON-THE NORTH-I BLANT GOAY IY HEE BASSN-THE NORTHE-ERS LIGHT.—Quite unexpectedly the Northern Light made her appearance at our levee yester-day morning, having lett Dunleith on Sunday last. A large quantity of floating lee had noon-mulated in the river, and as she came up plow-ing and crushing the great lecokes with her noble bow, it reminded us of an arctic picture noble bow, it reminded us of an Arctin ploture which we have seen graphically portrayed in Kane's expedition. We think wo are sets in caying that so other boat will be able to get up this fall, as all other boats in this line have cone into winter quarters. While the Grey Eagle annually claims the honor of first reaching St. Paull into spring, on the opening of navigation, the undaunted Lottwick, looking fate in the face, is usually the "last man" to laive us are we are locked in the aims of the ice king. He made the last trip to this port in the fall of '57, and he come to us again, his fine steamer heavily burdened with freight, and a goodly number of passengers, when the odds from the ice are two to one against him cro he can reach home with everything safe and soud.—St. Paul Times,

MILWAUKEE: TUESDAY MORNING, NOV. 23.

PROCLAMATION. In the good Providence of God another year has passed, and its memories and its fruits have been gathered up. Toward all mankind He has exhibited noundant mercies, and upon us he has showered incumerable hearings. Beed time and harvest came and are goes, and the fat earth hath yielded its great harvests and its fruits every tree and every plant bearing seed after its kind. His bow has been still in the clouds. His avenging rod has been withheld, and the pestitence that walketh in darkness, and the destruction that wasteth at noonday, have natted by the

passed by us. science and art, and in intellectual development, the earth has been astonished at coutinued and startwork is honorable and glorious, and his righteous-

ness endureth forever.

He bath made His wonderfal works to be remembered; the Lord is gracious and full of compassion.

He bath gracious and full of compassion.

He bath given meat unto them that fear Him; He will ever be mindred of His corenant.

The fear of the Lord is the beginning of wisdom; a good understanding have all they that do His commandment; His praise endureth forever.

Inderstanding have all they that do fils commandments; His praise endureth forever.

For all his bountles and mercles, and loving kindness and care, we owe the homago of grateful, humble and bedlient hearts. Foliowing a venerable and wisely instituted custom, I therefore do here appoint, "First redden, the 20th day of November next, as a day of Thanksgiving and Prayer and Praise. And I commend that day to the observance of the good people of his state, enjoining them to abstain thereon from all secular avocations and emp oyments, excepting only works of necessity and mercy.

By the Governor,

J. D. RUGGLES, Ass't Sec'y, of State.

From the Detroit Dally Advertiser. Southern Souse vs. Northern Bough facelsm. The whole doughface press, from the New

York Herald down to the Detroit Free Press, profess to be horror struck at the "incendiary doctrines" of Gov. SEWARD's Rochester speech and pronounce it a "orutal and bloody manifesto." Some of them express this view of the matter because they are too stupid to understand what he did say, and take their opinions secondhanded, and others have willfully and wickedly perverted his language. To which class the Free Press belongs we leave our readers to deoide. But we have no doubt its manager would prefer the title of knave to that of fool. But both classes are equally deserving public contempt. Sensible and honest man at the South take a different view of Gov. Sawarn's position. We yesterday queted the opinion of the National Intelligencer, that his views were neither new nor dangerous, and to-day we quote from the Louisville Journal an article to the same effect. The Journal is thoroughly devoted to Southern interests, and is edited by a man quite as capable of judging of the effect of Gov. Saw-ARD's doctrines as the Free Press and its doughface co-laborers. We call the attention of our readers to the comments of that paper, which

The proposition is perfectly lanecent. It is, in fact, but the re-production, in somewhat sharper form, of a pet opinion of Mr. Clays. Nothing could be inriber from the harrowing import with which distempered or designing fancies have invested it. The notion belongs wholly to the realm of ideas. It does not contemplate a plan of action, but merely a scheme of natural development. It is a speculation, not a project—the outline of a conviction, not of a campaign. It is a mere forecast of events. It is Mr. Seward's theory of our national progression. It is his judgment as to what will happen in the ordinary course of things. It is simply a harmless bit of Republican philosophy. No doubt it is very obimerical, and no doubt it is cherished religiously by searly all good Republicans; but chimerals are not criminals they are not even dangerous, and, whether they are er not, all good Southern Democrate are chockfull of them. Mr. Hammond, in the course of his notable speech at Barnwell, puts forth, indeed, almost the exact counterpart of this particular one. He The proposition is perfectly innecent. It is

wish to see them in that capacity on every spot on the surface of the globe where their labor is necessary or beneficial. Nor do I doubt that such will be the final result."

Mr. Hammond does not expressly declare that always is destined to expel free labor from any portion of this country, but, unless he believes that slavery is neither "necessary" nor "hence cial" anywhore in the Union, save exactly where it exists, he most certainly agree with him. Yet who would be either so stupid or so insingere as to charge Mr. Hammond with amountsing on behalf of his political friends, a determination to carry slavery into the free States by force of arms? It is, of course, squally assume or expectedly knazish to charge, for no better rescor, a similar atrocity on Mr. Seward and his political friends. The two declarations of faith rest precisely on the same ground. Both, in a practical view, are culpable, or neither is. Neither amounts to anything, or both are inference.

Undoubtedly, neither amounts to anything. It has been ground the ground the ground that slavery is destined to the same ground. Both, in a practical view, are culpable, or neither is. Neither amounts to anything, or both are inference.

THE TRIBD DISTRICT -The News insists that whatever the Sentinel may have expected in regard to the Third Congressional District, "some leading Republicans" regarded it as "certain," while they set down the First District as doubt. ful." Very like ; and so, too, some leading Damocrats entertained precisely the same idea. while not a few of them were entirely confident of carrying both the First and Third Districts and a decided majority in the Legislature and on the popular vote. The result was something of a damper on their expectations,

The Milwaukee Sentinel undertakes to rate us for what we have said about the disusion sentiments of Senator Seward's Rechester speech. We have done the New York Senator no injustice.—Stevens Point Pinery.

The Sentinel invited the Pinery to quote

As one, we would prefer that the Democratic party should be deleated in the next Presidential election rather than it should win success by the election rather than it should win success by the smallest possible further concession to the antislavery centiment of the North. We therefore prefer defeat to the adoption of Mr. Douglas as the Denocratic candidate for the Presidency, because that involves concession. Eather than this, we say, let the Democratic party become in its organization, as it now is in its essential composition. A Sunthern sectional party, and lat us stand on our constitutional rights and rely on our own moral and material resources, for the protection of those rights, in the Union if we can—out of it, if we must. su-out of it, if we must.

HALL and Whitney on the Geology of Iowa is now published, and is a work which will ozer: a family in the country. She told the usual story of poverty, and we only observed that her hends were thin and hony, and her cheeks that State in the development of its natural resources. It contains over 700 pages, several sectional views, an accurate geological diagram ber to ent, which she received quietly, and on the lead regions, a colored geological map of the lead regions, a colored geological map of the eastern half of the State, and numerous plates of fossila, &c. The several rock formations are fully described, as to their extent, thickness, their relation to the external aspect of the country, economical bearings in regard to character of soil, supply of building material, mineral contents, &c., all of which presents in a concise form a connected view of the natural resources, sectional views, an accurate geological diagram form a connected view of the natural resources, and a reliable data for estimating its future productive industry. The matter is made clear by numerous illustrations, copious analyses of rocks and minerals, and comprehensive views of the relation of that district to adjoining regions, and the part it sustains in the general geological structure of the continent; in regard to all versing the streets, as she fell swed advertisements

"You must not suppose for a moment that I am opposed to the extension of the area of African savery.' On the contrary, I believe that God created negroes for no other purpose than to be the 'hewers of wood and the drawers of water'—that is, to be the saves of the white race: and speculating in railroads and wild lands with their business capital; it has opened the eyes of multitudes to the folly as well as sin of stock gamb--that is, to be the slaves of the white race; and speculating in railroads and wild lands with their

The necessity of making some improvement in the channel of the St. Olair Flats has been frequently presented to Congress, and it will be remembered that in the spring of 1886, an exprepriation of \$50,000 was made for this object. It had been estimated that \$100,000 would cover the strength of the stre remounts to anything, or both are infamous.

Of the experts \$42,407,246 was in domestic speof the exports \$42,407,246 was in domestic specie and bullion, and \$10,225,901 foreign do.—
The excess of exports over imports is just about equal to the exports of emports is just about to the exports of domestic specie.

The total imports are \$78,276,991 less than for the previous year; but in dutiable merchandie the total is less than any previous year since 1852. The falling off in round numbers, in dutiable goods, is \$22,000,000, and there is a gain in both free goods and specie. The increase in free goods is made up entirely of articles added to the free list by the tariff of 1857.

The Sentinel invited the Pinery to quote some of the "disunion sentiments" of which it complains; but the Pinery, though repetting the charge, fails to produce the proof. If Gov. Exwards speech is such a treatonable one, surely the democratic papers would do a politic thing to publish it.

The Fer some time previous to the election, the Boston Democrata maintained a "reading and writing school" for the benefit of the foreign population, but closed it immediately after!

An Anti-Donglas Southern View.

The Mobile Register, one of the most influential Administration Journals of the South, regards the anceses of Douglas as inevitably father to the Democracy of the south in the South, regards the anceses of Douglas as inevitably father to the Democracy. The Register also gives a trubful description of the so called National Democracy, in raying that, "It now is in its essential composition, a Southern Sectional Particular of Congress to make this appropriation of Northern Democrate generally,"—which statement we commend to the care ful consideration of Northern Democrates generally, and to intensely national "Buchansa Whige" in particular. We subjoin the extract in question:

FOR FEMALES.

The combination of lugredletts in Br. Duponce's Golden Pilis are perfectly barmiers. They have been used in the private practice of old Dr. Duponce for over thirty years, and thousands of ladies can testify to their great and never failing success in almost every case, in correcting irregularities refleving painful and distressing menutuation, particularly at the change of life. From five to ton pilis will cure that common, yet dreadint completely the Whites. Nearly every lady in the land suffers from that complaint. The above pill has permanently cured thousands, and will cure you if you use them. There cannot harm you, on the contrary they remove all obstructions, restore nature to its promor of charel, and invigorate the whole system. Ladies, whose hashin will not permit an increase of Family, will find these pills a successful precentalive. Prepandiform in the military of the proposition of the p
